

**FINANCE STANDING COMMITTEE** : 2026-01-20

**EXECUTIVE COMMITTEE** : 2026-01-23

**COUNCIL** : 2026-01-29

**39. SECTION 52 QUARTER 2 OF 2025/26**  
(6.1.1) (Manager Finance)

**1. PURPOSE**

To **CONSIDER** and **APPROVE** SECTION 52 for **QUARTER 2** of 2025/26 for the financial year ending 30 June 2026.

**2. BACKGROUND**

The strategic objective of this report is to ensure good governance, financial viability and optimal institutional transformation with capacity to execute its mandate.

**3. LEGAL AUTHORITY**

In terms of section 52 of the Municipal Finance Management Act:  
The Mayor of a Municipality must within **30 days** after the end of each quarter submit to the **Council of the Municipality**, and the relevant **National and Provincial treasuries**, on the implementation of the municipality's budget and the financial state of affairs of the municipality.

**4. REPORT**

This report is based on financial information as at **31 December 2025** and available at the time of preparation. All variances are calculated against the approved budget figures

The total revenue excluding capital grants amounted to **R406 242 million**, resulting in a satisfactory variance of 13% compared to the year-to-date budget of **R360 880 million**.

Total Actual Operating expenditure as at **31 December 2025** is **R386 097 million**. The Total Operational Expenditure resulted in a negative variance of 7% when compared to YTD Budget of **R362 107 million**.

**Reasons for the variances are articulated in Section 5**

The Capital actual expenditure including VAT to date is **78.16% (R105 189 million)**. **It should be noted that capital expenditure excludes commitments.**

**Capital Grants Expenditure to date and Percentage**

The Major Operating Revenue variances against the budget are:

Certain Revenue by source and Expenditure by type categories are showing excessive negative and/or positive variances. This is due to fact that the YTD budgets were all systematically determined on a straight-line basis by dividing the total

**budget per category by 12. The capital projections were also done in the same fashion. Please note that variances within a 10% range are acceptable and need not necessarily be explained**

**The Major Revenue variances (+10%) against the YTD budget are:**

**Exchange Revenue**

- **Service Charges – Electricity** – Favorable variance of R7 710 million (8%) and the positive variance in electricity revenue is partly due to increased electricity consumption. Improvements in metering, billing accuracy and collection efforts have also resulted in more revenue.
- **Service Charges – Water and Sanitation** – Unfavorable variance of R4 568 million, tariffs for water and sanitation are linked. The unfavorable variances are mainly due to non-functional meters, which prevent actual readings and require the use of estimated consumption. In addition, credits applied to consumer accounts have contributed to these variances.
- **Sale of Goods** – Unfavorable variance of R188 Thousand (-2%) due high demand in building plans approval.
- **Interest earned from Receivables** -Favorable Variance of R1 715 million (79%) The increase is as a result of debtor's book that is increasing due to non-payment of consumer accounts.
- **Interest from Current and non-current Assets**- Unfavorable Variance of R3 162 million (-55%) Actual income for interest from current and non-current assets for the mid-year is lower than the budgeted year-to-date amount. This is mainly due to the Municipality not investing as much cash as initially anticipated. The reduced level of investment was a result of ongoing financial constraints and cash flow pressures, which required the Municipality to retain available funds to meet operational commitments and service delivery obligations. Management continues to closely monitor cash flow and will invest surplus funds when financial conditions allow.
- **Rental from fixed assets** - Favorable variances of R741 Thousand (80%) This over-collection is mainly attributable to the opening of a new rental account during the financial year, which was not included in the original budget.
- **License and permits** -Unfavorable variance of R349 Thousand (-16%) The low revenue collection on licenses and permits for the period is primarily due to a suspension or delay in vehicle testing activities. This was caused by the poor condition of the roads, particularly the presence of potholes, which made it unsafe or impractical to conduct vehicle roadworthiness tests. Since testing is often a prerequisite for issuing certain licenses and permits, the inability to perform these tests resulted in lower revenue.
- **Operational Revenue**- Unfavorable Variance of R17 353 million (-69%). The low revenue collection from land disposal during the period is mainly due to delays in the sale and transfer of municipal land. Several contributing factors have impacted the ability to generate the budgeted revenue from land transactions.

**Non-exchange Revenue.**

- **Fines, penalties, and forfeits**- Unfavorable variance of R3 503 million (-74%) due to delays in capturing traffic fines tickets on the financial system.
- **Transfer and Subsidies Operational**- Favorable variance of R64 551 million (47%) The higher-than-budgeted revenue from conditional grants during the period is due to the receipt 2nd tranche from the National Treasury than initially projected.

**The Major Operating Expenditure variances against the YTD budget are:**

- **Employee Related Costs**- Unfavorable variance of R12 698 million (9%). The actuals year-to-date expenditure on salaries is higher than the year-to-date budgeted amount. This variance is mainly due to the budgeting methodology applied, whereby the annual salary budget per category was systematically spread on a straight-line basis by dividing the total budget by twelve months. In practice, salary expenditure is not incurred evenly throughout the year, as a significant number of employees receive once-off payments such as annual bonuses during specific months, particularly in July, August, and December. The payment of these bonuses during the first half of the financial year resulted in higher actual expenditure when compared to the evenly phased YTD budget, leading to an apparent overspending.
  - Payments of annual bonus that was paid in July, August and December.
  - **Acting Allowances** – Several acting appointments were made during the period to ensure continuity of operations. However, the associated acting allowances were not included in the original budget, contributing to the overspend.
  - **Standby and Overtime Payments** – Expenditure on standby and overtime has exceeded projections. These costs were higher than anticipated and have placed additional pressure on the salary budget.
  - An increase in employer and employee medical aid contributions resulting from employees adding additional dependants to their medical aid schemes during the financial year. These additional medical aid members were not factored into the original budget assumptions.
  
- **Remuneration of Councilors** –Favorable variance of R884 Thousand (-11%) The underspending on the remuneration of councilors is primarily due to the annual salary increment not yet being implemented during the reporting period.
- **Bulk Purchase - Electricity** - The actual expenditure on electricity bulk purchases for the period is higher than the budgeted amount by R11 532 million, representing a variance of 15%. This increase in cost is attributed to the following factors:
  - One of the main contributors to the variance was an increase in electricity rates.
  - Another factor contributing to the variance is higher-than-expected electricity consumption. This may be due to seasonal fluctuations in demand, such as increased operational activity beyond what was forecasted.
  
- **Inventory consumed** – The actual expenditure on Inventory Consumed for the period is lower than the budgeted amount by R7 666 million, representing a variance of 47%. This underspending is mainly attributable to cost containment measures implemented by the Municipality as a result of ongoing financial constraints. The Municipality limited the issuing and consumption of store items to essential and priority activities only, with non-critical usage deferred where possible. This controlled approach to inventory utilization contributed to reduced expenditure during the period under review. Management will continue to monitor inventory consumption closely to ensure that spending remains within available financial resources while maintaining critical service delivery.
  
- **Debt impairments** - Favourable variance of R6 750 (100%) It should be noted that this is an accounting entry and it is normally done at the end of the financial year.

- **Depreciation and Amortization** - Unfavorable variance of R9 674 million (28%) due to depreciation being calculated and captured monthly based on the asset register, which reflects the current value and useful life of all assets.
- **Contracted Services** - Unfavorable variance of R5 164 million (11%). Actual expenditure on contracted services is higher than the budgeted year-to-date amount. This overspending is due to under-budgeting in certain key service areas, particularly security services, Vaal Water services, and professional fees. The approved budget did not adequately provide for the full cost of these contracted services, resulting in expenditure exceeding the allocated amounts as services continued to be rendered to ensure uninterrupted municipal operations and compliance requirements. Municipality will address these budget shortfalls during the adjustment budget process and will continue to strengthen budget planning to ensure more accurate costing of contracted services in future financial periods.
- **Irrecoverable debts**- Unfavourable variance of R1 899 million (515%) It should be noted that this is an accounting entry and is based on estimates only.

The Major Capital Expenditure variances against the budget are:

The monthly C-schedule is categorized by municipal vote and functional classification. The YTD Actual on capital expenditure as at end of **December 2025** amounted to **R91 044 million** when compared to the YTD budget of **R67 293 million**.

Please note that the **C5 reporting template of the National Treasury excludes VAT** from all reported amounts. As a result, **all figures presented in the table above are exclusive of VAT**.

- **Finance and Admin / Planning and Development**- This underspending is due to cost containment measures implemented by the Municipality as a result of ongoing financial constraints.
- **Road Transport** - Unfavorable Variance of R14 162 million (61%) The overspending is due to payments made for the Diamond View Internal Road project, which is funded by the mines but was not budgeted for in the current financial year.
- **Community and Social Services**- Unfavorable variance of R1 034 million (28%). The variance between actuals and budget for the Community and Social Services is primarily due to the Hall project progressing at an accelerated pace. The contractor has been able to complete more work than initially planned. This could be attributed to the favorable weather conditions.
- **Water Management** – Unfavorable variance of R9 278 million (34%) The variance is a result of the water projects running at an accelerated pace, leading to higher-than-expected spending in the current period. The project remains within its overall approved budget.

### 3. Cash Flow Statement (CFS) (Annexure A – Table C7 and Table SC9)

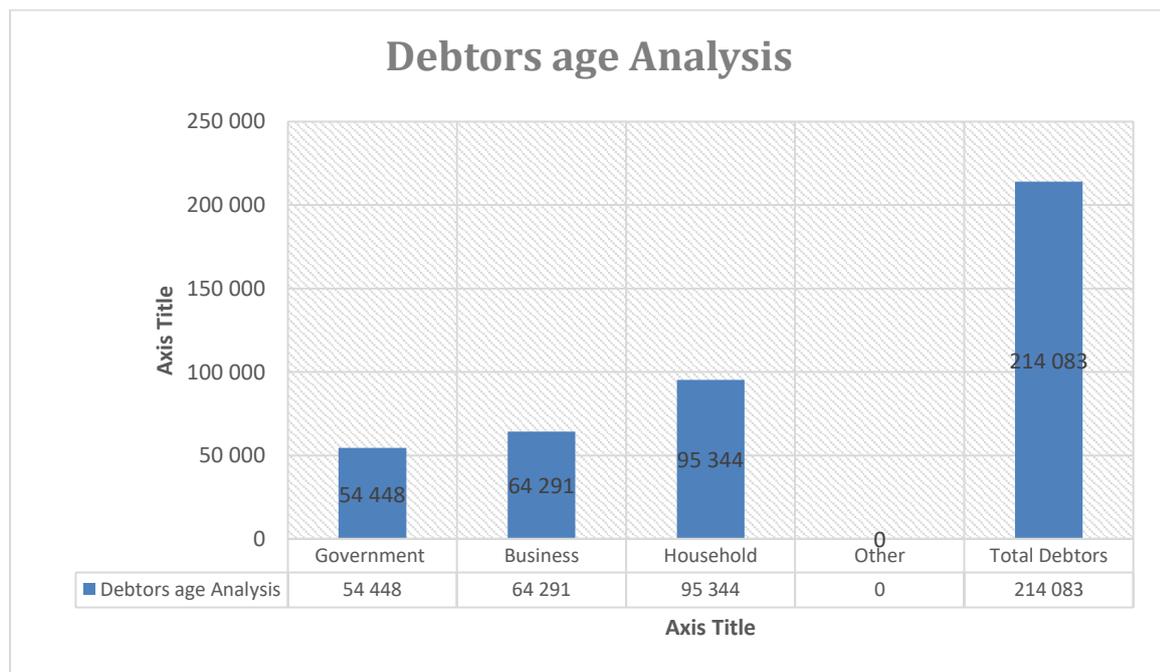

The CFS report for the period ending **31 December 2025** indicates a closing balance (cash and cash equivalents) of **R73 210 823.49** million which comprises the following:

- Bank balance and cash **R10 032 768.63** (Main Account);
- Bank balance and cash **R57 870.84** (TTS Account);
- Bank Balance and cash **R63 120 184.63**(ABSA Call Account)

### 4. Outstanding Debtors report (Annexure A – Table SC3)

The debtor's report has been prepared based on the format required to be lodged electronically with the National Treasury. This format provides an extended aged analysis, as well as an aged analysis by debtor type. The summary report indicates that:

Total outstanding debtors as of **31 December 2025** amounts to **R214 083 million (Government: R54 448 million, Business: R64 291 million, and Households: R95 344 million).**

**NC452 Ga-Segonyana - Supporting Table SC3 Monthly Budget Statement - aged debtors - M06 - December**
